

ENDANGERED SPECIES WEEKEND

MAY 21 – 23

SAVING ANIMALS FROM EXTINCTION SCAVENGER HUNT

Endangered species can include plants or animals that are likely to become extinct in the near future. Species are placed on a spectrum to determine how endangered they are. **Your challenge is to identify each animal's global endangered status. Answers can be found on the animal's identification sign.**

If the animal is found in Canada, check if there are differences in status between the global, federal, and provincial levels. If there is a difference, discuss why you think there might be a difference, or how the possible threats may be different throughout the animal's range.

Please note, animals occasionally might be taken off exhibit or moved for care or exhibit maintenance.

ENDANGERED STATUS

- Least Concern
- Near Threatened
- Vulnerable
- Endangered
- Critically Endangered

GRASSLANDS & BOREAL FOREST	ENDANGERED STATUS
Burrowing Owl	
Plains Bison	
American Elk	
Rocky Mountain Big Horn Sheep	
Grey Wolf	

ACTION

List how people can contribute to healthy grasslands and support conservation efforts:

JOURNEY TO CHURCHILL	ENDANGERED STATUS
Snowy Owl	
Arctic Fox	
Muskox	
Reindeer	
Polar Bear	
Harbour Seal	

ACTION

What else can you do to help reduce carbon emissions?

KINSMEN DISCOVERY CENTRE	ENDANGERED STATUS
Banded Archerfish	
Indian Star Tortoise	
Saharan Spiny-tailed Lizard	
Greater Spear-nosed Bat	
Meerkat	
Prevost's Squirrel	
Blind Cave Fish	

ACTION

What can you do to protect coral reefs?

Identify each animal's global endangered status. Answers can be found on the animal's identification sign.
